

ALVAS CUSTOM WOOD BARRE AUTHORIZATION FORM

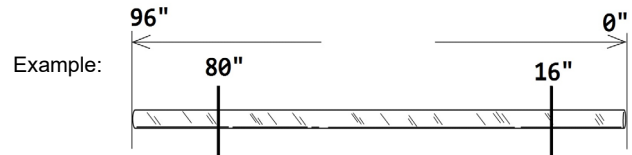

Follow the Steps to Complete this Form:

1. Use one sheet for identical barres only (same length, same hole spacing and same wood). If there are any differences, even minor, a separate sheet must be used.
2. Specify:

Qty: _____ Length (ft): _____ Wood (Type): _____

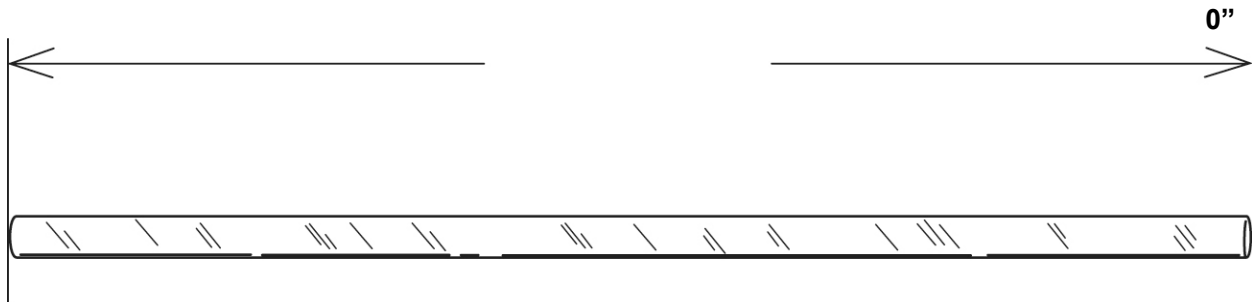

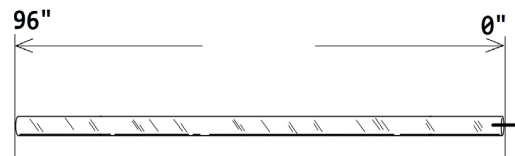

3a. Holes for Brackets:

Indicate where the holes should be drilled for the bracket locations on the diagram below, from **right to left**. (The spacing accuracy for Alvas drilled wood barres are + or - 1/8".) Otherwise, if no holes should be drilled into the barre, write "No Holes".

3b. Holes for Splice Joint Pins:

Indicate which end(s) the hole(s) should be drilled for the splice joint pin. If no splice joint pins are desired, omit this indication.

4. Double check to make sure your specified holes fall within our tolerance:
Spacing for Brackets (Custom Barres): Max Span: 80", Max Overhang: 20", Min Overhang: 2"

5. Complete and Sign:

Customer Name: _____

Phone: _____

Email: _____

I authorize the custom barre diagram above.
I understand that all Custom Wood Barres are non-returnable and non-refundable.

Signature

Date

6. Return this completed form to info@alvasbfm.com.
